EDUCATION

CT Institute of Technology & Research, Jalandhar

2022 – 2026

B.Tech, Computer Science & Engineering (IKGPTU) – CGPA: 8

Jalandhar, India

EXPERIENCE

Full-Stack Developer Intern

Jan 2026 – Jun 2026

Omnimise  – Web (Next.js) + Mobile (React Native/Expo), sole developer

Bangalore, India (Remote)

- Owned end-to-end delivery of a production document-vault and collaboration platform, including a shareable **Business Card** system and an OAuth-based **Portfolio Hub** with claim verification.
- Published the **mobile app to the Google Play Store**, completing the Play Data Safety filing and release process end-to-end.
- Built **DigiLocker integration via API Setu**: OAuth callback flow, encrypted XML parsing, document field mapping, and resync/restore logic.
- Designed a real-time vault messaging system on **Socket.io** with document/image/PDF delivery and mobile-optimized rendering via expo-file-system.
- Implemented multi-provider **OAuth** (DigiLocker, GitHub, Dribbble) with deep linking and biometric vault authentication using expo-local-authentication.
- Designed **RBAC** for an HR/recruitment module and a vault **credentials manager** with categorized storage and 3-way sharing; set up Jest test suites and a staging CI/CD pipeline.

Trainee – Frontend Developer

Jun 2024 – Jul 2024

ThinkNEXT Technologies Pvt. Ltd. 

Chandigarh, India

- Completed structured **React.js** training covering JSX, routing, and reusable components.

PROJECTS

DevConnect – Developer Networking Platform | MERN, AWS EC2, Socket.io, Nginx

- Deployed a live app on **AWS** with profile management and developer connections.
- Built real-time chat using **WebSockets** and integrated email notifications with automated background tasks.

WiseMate – AI Learning Assistant | MERN, Gemini API, Mermaid.js, Cloudinary

- Created an AI platform with 5 tools: diagram maker, study planner, code reviewer, career roadmaps, and chatbot.
- Built a smart diagram generator that creates visuals from text descriptions with export options.

PrepLock – Multi-Platform Productivity App | MERN, React Native, Gemini API

- Built an app with a Chrome Extension, website, and mobile app that blocks distractions until tasks are done.
- Synchronized data across all platforms with secure JWT authentication and real-time updates.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, C++, HTML5, CSS3

Frontend: React.js, Next.js, React Router, Tailwind CSS

Backend & DB: Node.js, Express.js, MongoDB, Mongoose, MySQL, Socket.io, REST APIs, JWT, RBAC

Mobile: React Native, Expo, expo-local-authentication, expo-file-system

Cloud & DevOps: AWS (EC2, SES), Vercel, Render, Nginx, PM2, Git, GitHub Actions (CI/CD)

Tools: VS Code, Cursor, Antigravity, Claude, Postman, Android Studio, MongoDB Compass, Mixpanel

ACHIEVEMENTS

- Top 15 Finalist**, DevCreate BuildFest 1.0 Hackathon (GDG Jalandhar) – ranked among top 15 of 115 teams in a 30-hour AI-focused hackathon.
- Top 10 Finalist**, Next Quantum 2.0 Hackathon (GGI) – AI learning platform with multi-feature AI integration.
- Appreciation Award**, Web Mania 2025 (Lyallpur Khalsa College) – recognized for innovative frontend logic and implementation.
